Welcome to Halden – the little city with big attractions!

«Halden in an idyllic little town nestled down by the Iddefjord. Cobblestone streets, shops large and small, cosy restaurants, river promenades and the guest harbour are all within easy reach of downtown. Above the town centre looms the mighty Fredriksten fortress. This large and magnificent fortress is one of the most frequently visited tourist attractions in Norway.» - www.visitHalden.com

Welcome to Fredrikstad – perfect mix of old & new!

«In Fredrikstad we are lucky to have one town on each side of the Glomma river – the new city on the west bank with a quayside promenade with restaurants like a string of pearls and the Fortress town (Gamlebyen) on the east bank, well-preserved with cobbled streets – one of Northern Europe’s real treasures. The Fortress town is filled with vibrant history, cobblestone streets, small wooden houses, unique boutiques, cafes and much more.»

What students have to say:

I chose Norway because of the country's impressive scenery. The education system is very good and so is the quality of life. Østfold University College offers a wide range of courses for international students. They offer student-centered learning in a modern and comfortable atmosphere.

Organizationally, everything was perfect at the beginning of the semester! The detailed and easily understandable information given to us by the buddies made it easy to find our way around our new school. Our buddies helped us a lot by responding to every concern we had and helped us to socialize and meet new people.

The buddy scheme here at Østfold University College was amazing. Indeed, when we are coming to a country, alone in my case, it is really great to be welcomed as we were by the buddies. My buddy is wonderful. I was really surprised how much she was willing to help me feel comfortable and help me not to be too lost in my new daily life. I am grateful and really appreciate the buddy scheme!

I recommend all students who want to study abroad to exchange to Østfold University College. Going abroad is wonderful in itself and it contributes to your personal and professional development. I like the teaching and studying methods and the focus on group work at Østfold University College.
