

RESSURSARK – LYTTEMATERIELL - ENGELSK

Tittel: Comparing Education (2004) – Engelsk Vg3 Samfunnsfaglig engelsk

Kort beskrivelse:

Kai has been asked to listen to and comment on Richard talking to Sian (pronounced like “Shawn”) about studying at the university in Cambridge. We first hear Richard and Sian talking about Cambridge, the prestige of going to Cambridge and the tutor-teaching system. Kai responds to this, comparing it with the way he has been taught. Then Richard and Sian talk about social life at university, the ranking system of universities and colleges and the way we might study in the future.

Oppgaver for refleksjon /diskusjon/samtale:

1. Why is a degree from Oxbridge (Oxford and Cambridge) so prestigious?
2. How does the tuition system of Cambridge differ from the Norwegian one? Which one would you prefer?
3. What do you see as the benefits of Open University, studying at home, rather than studying at a university?
4. The Norwegian student Kai prefers Norwegian social life with its focus on parties and dancing rather than sports and culture. What will you consider important in your social life as a student?
5. How can ranking lists be constructive or not?
6. What are the challenges and benefits of going abroad to study?

Kompetansemål Vg3 Samfunnsfaglig engelsk:

Kommunikasjon

- bruke et rikt og nyansert ordforråd til å kommunisere om samfunnsfaglige emner
- oppsummere, kommentere og diskutere ulike synspunkter på samfunnsspørsmål.
